

## **SOCIOLOGY MAJOR: CHECK LIST**

Name \_\_\_\_\_

Class Year \_\_\_\_\_ Advisor \_\_\_\_\_

The Sociology curriculum introduces students to the discipline, especially to the interplay of sociological theory and sociological research. Courses foster appreciation of such sociological concerns as social inequality, race and ethnicity, gender, social change, globalization, social control, deviance, conflict, social movements, and the formation of identity, and of various major social institutions, including education, the economy, polity, family, medicine, law, and criminal justice. Social policy issues are a common theme in course. By conducting research for course projects, students learn that sociology is an empirically based social science; they learn to do sociology as well as to read about how it is done. The major in sociology provides students with critical and humanistic perspectives. For those considering graduate or professional school, the major offers a comprehensive background in theory, research methods, statistics, and various substantive subject areas in the discipline.
