Interested in doing laboratory research this summer?

• Work in a Sanford Research lab for a 10-week program.
• Contribute to cutting-edge research in areas such as molecular biology, cell biology, biochemistry, developmental biology, neuroscience and genetics.
• Participate in valuable career development workshops.
• Enjoy the social community in Sioux Falls, a small city with an abundance of dining, shopping, sporting events, and entertainment.

Participants:

• Any college student majoring in the life sciences is eligible to apply.
• Applicants should be in their freshman, sophomore or junior year when applying and should be interested in exploring careers in science.
• Students are provided a stipend and housing.

For more details and information on how to apply, visit sanfordresearch.org/education/undergraduates/spur/
