SUMMER RESEARCH ASSISTANTS
Department of Environmental Sciences and
Center for Vector Biology & Zoonotic Diseases

We anticipate several Seasonal Research Assistant positions at the Center for Vector Biology & Zoonotic Diseases at The Connecticut Agricultural Experimental Station to assist in Mosquito Research and Surveillance Programs on West Nile and Eastern Equine Encephalitis Viruses.

1. Laboratory Research Assistant – Mosquito and Virus Testing
   Duties: Preparation of mosquito specimens for virus testing and computer-based data entry. Will work with human viral pathogens in a secure Biosafety Level 3 containment facility.
   Background: Course work or experience in cell and molecular biology, biochemistry, microbiology, and/or immunology is desirable. Training provided.

2. Laboratory Research Assistants - Mosquito Identification
   Duties: Microscopic identification of larval and adult mosquitoes, preparation of specimens for virus testing, computer-based data entry, maintenance of mosquito and laboratory animal colonies, and occasional field work.
   Background: Course work or experience in insect identification, use of diagnostic keys and microscopes, mosquito biology, and/or entomology is desirable. Training provided.

3. Field Research Assistants - Mosquito Trapping and Surveillance
   Duties: Field-monitoring and collection of larval and adult mosquitoes from wetland swamps and other habitats, laboratory sorting of mosquitoes. Substantial travel to mosquito research sites throughout the state.
   Background: Course work or experience in biology, entomology, and/or wetland ecology is desirable. Vehicle and training provided.

Positions are durational from May 1 through October 31, 2017 with variable start and end dates, depending on the position. The hours of work are 8:30-4:30, M-F (35 hr/wk) and the starting salary is $11.00/hr. To apply, interested candidates should submit: (1) a cover letter indicating interest in the position, (2) resume, (3) college transcripts, and (4) names and contact information for 3 references (e-mail preferred) to: Dr. Philip Armstrong, The Connecticut Agricultural Experiment Station, 123 Huntington Street, New Haven, CT 06511. Phone 203-974-8510; FAX 203-974-8502; e-mail: philip.armstrong@ct.gov

The Connecticut Agricultural Experiment Station (CAES) prohibits discrimination in all of its programs and activities on the basis of race, color, ancestry, national origin, sex, religious creed, age, political beliefs, sexual orientation, criminal conviction record, gender identity, genetic information, learning disability, present or past history of mental disorder, mental retardation or physical disability including but not limited to blindness, or marital or family status. To file a complaint of discrimination, write Director, The Connecticut Agricultural Experiment Station, P.O. Box 1106, New Haven, CT 06504, or call (203) 974-8440. CAES is an affirmative action/equal opportunity provider and employer. Persons with disabilities who require alternate means of communicating program information should contact the Chief of Services at (203) 974-8442 (voice); (203) 974-8502 (FAX); or Michael.Last@ct.gov (E-mail).
