

## Environmentally Sound Chemicals

- Currently all chemicals used by Dining Services for cleaning are Green Seal Certified
- Our new Apex warewashing program provides an ability to improve efficiency to reduce water and energy consumption
- The program also will move toward a more environmentally friendly, sustainable and non caustic formulation.
- Based on the current campus population, the following annual savings will be realized with the program:
  - 49,275 gallons of water
  - 27,594 kilowatt hours of electricity
