

Calculus Placement Worksheet

Directions: Answer the question below and the question written along the right side of this sheet, then use the table to determine which first calculus courses might be best for you. **Students often tend to choose a course that is too easy; try the harder course for a few days, then move down if you still feel it is too difficult.**

Any student who scores a 4 or 5 on the Calculus AB exam should be prepared for Math 122 or 161 and should not plan to take Math 121.

A typical math SAT score for a Colby student would be in the low 700s. A typical ACT score would be about 31. Would you describe your score as being higher, medium, or lower?

I scored higher than a typical Colby student on the math SAT or ACT.	I scored about average for a Colby student on the math SAT or ACT	I scored lower than a typical Colby student on the math SAT or ACT.		Which of the statements below best describes your high school mathematics background?
MA161 MA122	MA161 MA122	MA122	I scored 4 or 5 on AP or 6 or 7 on IB HL.	
MA161 MA122	MA122	MA122 MA121	I did well in high school calculus.	
MA122 MA121	MA121	MA121	I took some high school calculus.	
MA121	MA121	MA121	I did well in high school precalculus.	
MA121 Contact us	MA121 Contact us	Contact us	I do not feel well prepared for calculus.
