The programs and universities below may be of particular interest to students wishing to do an internship in conjunction with their off-campus study experience. Some programs may have internships in multiple disciplines and countries while others are more specific to a discipline or country. In some programs the internship is optional, in others it is a required part of the program.

International internship programs are encouraged, but must meet Off-Campus Study requirements in order to earn academic credit. The internship should be done as part of a study abroad program that is predominantly credited in terms of the courses taken. The internship must be non-paid and with considerable academic work done in tandem. Typical models consist of 16 credits with the internship counting for 4 credits and three other courses counting for 4 credits each.

Not all programs are Colby-approved. Some may require a petition or a language pre-requisite.

EXAMPLES OF INTERNSHIP PROGRAMS

Switzerland: Smith College in Geneva internship track
Belgium: American University in Belgium: European Union in Action
China: The Alliance for Global Education in Shanghai: International Business
USA
The Washington Center Internship program
Washington Semester, American University
