Researching Programs:

The off-campus study opportunities suggested within this brochure are intended as a starting point in your research. They are not an exhaustive list of available options.

Many of the programs &/or universities offer classes or courses of study that are appropriate or recommended for this subject. However, you should carefully consult the course offerings and please be aware that offerings may change and are not guaranteed. It also does not mean that all classes taken at these institutions will always be approved.

More information on these, and other programs or universities, can be found on the OCS and/or program or university websites.

We strongly recommend that you use the resources and guidance available in the OCS handbook and website in the Getting Started section. Learn more about the different types of programs and how to choose the right program for YOU.

Questions...

*Other Information Sessions.*
Check the OCS calendar for schedule & location.

UNIVERSITY-BASED PROGRAMS

Many universities abroad will have a geology department, some with strengths in particular areas so search the universities in countries in which you are interested.

New Zealand:
University of Otago
Victoria University of Wellington

Australia:
James Cook University
University of Tasmania

Scotland:
University of Edinburgh

South Africa:
CIEE Cape Town

FIELD-BASED AND THEME PROGRAMS

Some universities have certain courses with a field component.

U.S.A.:
Colby at Bigelow Laboratory

Nepal:
SIT Nepal: Development and Social Change

Worldwide:
Some other SIT and CIEE programs

SUMMER PROGRAMS

Please note the policies for summer off-campus study.

Iceland:
SIT Iceland: Renewable Energy, Technology, and Resource Economics (summer)

Nepal:
SIT Nepal: Geoscience in the Himalaya (summer)

Bhutan:
School for Field Studies (SFS) in Bhutan: Himalayan Forests, Watersheds, & Rural Livelihoods (summer only)

NOTE:
- Not all programs are Colby approved. A petition may be required.
- Colby’s language pre-requisites and others apply
- Not all courses taken on these programs/universities will automatically qualify for credit towards the major or minor. Faculty approval is required.
