Design and Technical Production Books in the Colby Libraries

Please note: This bibliography represents a sampling of some of the most useful theater design and technical productions texts available in campus libraries. The list is not all-inclusive since there are hundreds of wonderful books housed in Miller Library, the Bixler Art and Music Library, and the Olin Science Library. If you find especially useful books while completing project work please send the bibliographic information to Professor Thurston so he can add it to this list.

Blake, Jody and Bobbi Owen. *Design USA Exhibit*. USITT in conjunction with Broadway Press, 2007
